may have settlement cracks which are deemed typical due to age. If foundation settlement was reported in the appraisal, the client may wish to review and determine if further investigation is warranted by a qualified professional. The appraiser reserves the right to alter this report upon the client providing that home inspection or property inspection or structural inspection report. The appraiser assumes as an "Extraordinary Assumption that all structural, plumbing, electrical and HVAC systems are in safe and satisfactory condition, if no such report is provided before the date of inspection. The appraiser is NOT acting as a Home Inspector" or "Termite Inspector" when preparing this report, since they are beyond the scope of the appraisal as well as the appraiser's expertise. The appraiser has only observed areas that were readily accessible, as the appraiser is not required to disturb or move anything that obstructs access or visibility. Unfinished attic and crawl spaces might also have limited or no access for the appraiser to view. Hidden

deficiencies in areas not observable by the appraiser may exist, as well as defects in systems that include, but not limited to, the foundation and structure, plumbing, electrical systems, roof, heating and air conditioning systems. Thus, the appraiser offers no warranties or guarantees of any kind. The exterior of the subject was physically measured and the roof was view from ground level only. The appraiser did not verify if prior building permits were obtained for any improvements or that required inspections by building officials were preformed. Further, the appraiser has not verified whether or not any private or individual sewage disposal system has been approved by the appropriate authority or that said system is adequate for the type, size and configuration for occupancy of the subject improvements. It is also not within the ability of the appraiser to determine the accurate type or location of any septic tank, field lines or well and whether those facilities are located within the boundary of the subject site, or partially located on or shared by adjacent properties. The appraiser has also made no determination as to the purity and quality of any private water source. Due to present of future concerns, a professional "Home Inspection" and "termite inspection" are both recommended.

The appraiser is also NOT acting as an "Environmental Inspector" when preparing this report. Since the appraiser is not an environmental expert; recognizing, detecting or measuring possible contamination, is beyond the appraiser's expertise. The appraiser is not qualified to determine the cause, type or risk associated with the presence of mold, asbestos or radon gas. If the subject was build prior to 1978, lead based paint may also be present. However, as of the date of the appraisal, the market does not appear to penalize neighborhood properties for the presence of lead based paint. Due to possible concerns with environmental contamination, the client may wish to contact a qualified "Environmental Inspector" to determine any negative environmental issues associated with the subject. The scope of the appraisal includes an exterior and interior view of the subject property and an exterior view of all comparable sales from the street, considering market trends, collecting and analyzing pertinent data, developing an opinion of subject's market value, and reporting the findings in this Appraisal Report. Real Estate professional and municipal offices in and around the subject's market area may have be consulted in the process of collecting and verifying data.

APPRAISER CONCLUSION

IF TO BE LISTED ON THE MARKET APPRAISER WOULD LIST THE SUBJECT IN THE RANGE OF \$19,900 TO \$24,900. IF LISTED ON THE HIGH END AND THERE IS NO ACTIVITY(Showings-Interest), THEN APPRAISER SUGGESTS YOU REACT AND REDUCE THE PRICE.

THE SALES-LIST RATIO IS 90% WHICH MAY SUGGEST THAT THE OFFERS MAY BE UNDER LIST PRICE.

APPRAISER OPINION OF VALUE IS BASED ON THE FACTORS OF VALUE AND ADJUSTMENTS(Adjustments based on paired analysis of median data, estimated cost, market reaction) FOR THE VARIANCES WHEN COMPARED TO THE SALES IN THE MARKET THAT WERE USED ON THIS REPORT.

APPRAISER OPINION OF VALUE IS NOTED ON PAGE 1 OF REPORT.

APPRAISER USED WHAT IN HIS OPINION WERE MOST COMPETITIVE AND MOST LIKE SUBJECT.

Appraiser has done a complete visual observation within the appraiser's scope of work and education NOT that of a home inspector.

The subject is situated on typical parcel in the Brown Township-Brown Schools market. Subject is a level, wooded-open site of 5.24 acres and has power line tower on it. This factor would impact marketability.

Market description continued:

The defined market of Brown Township-Schools is comprised of dwellings on typical sites, small village community of Malvern and is mostly rural in its make up. There is the community of Lake Mohawk which has off the lake dwellings and on the lake dwellings which has sales which in the past 12 months range from \$200,000 to \$1,000,000 PLUS. The balance of the market ranges from \$69,000 to \$600,000 PLUS. Dwellings are mostly maintained with marketability. The subject has access to Minerva and Carrollton and its sufficient amenities that meet everyday needs. There is access to areas of shopping, dining amenities as well as some manufacturing and many areas of employment. There are parks & recreation areas and centers. It is typical of most suburban-rural markets. There is accessibility to major arteries such as St Rt 183 & St Rt 43 which links to I-77.

Market description is for the whole defined single family market, within street boundaries of Brown Township-Schools. Appraiser defined the entire market within street boundaries noted on page 1. Not all sales would compete with subject.

Comparison Summary:

Appraiser searched the market within boundaries noted on page 1. Search was for similar size sites that would be similar in marketability, improvements and zoning(NONE). Locations of all being within the subject market and or bordering markets within 5 miles to 5 + miles-market expanded in order to find similar sloped-wooded sites. All have similar influence & access. All would have similar marketability. Adjustments made for market variances and accessibility. Adjustments have been based on market reaction, analysis and mostly appraiser experience. Opinion of value has been based on all closed comparables, weighted after adjustments. Opinion of value has been bracketed by the sales prices as well as the adjusted values. Search was back 12 months PLUS.

SOURCES USED FOR VERIFICATION:

-Exterior-Interior Inspection/Owner/Core Logic Realtor/County Auditor Sites/Neohrex MLS/Bing Mapping Program

-"No personal property was included in the valuation of the subject property."

-Subject is not a working farm, no agricultural or livestock observed at time of inspection, it is not income producing.
-No drilling or wells observed on property or within 300' of subject, no mineral rights given any value or influenced opinion.
-Any leases concerning mineral rights in place have been considered by appraiser, however, not given any contribution or consideration, mineral rights have value, however, it is volatile and there is too much variance to have any contribution.
-No gas, oil or mineral rights were given value on this report to comps or subject, appraiser is appraising property fee simple, not leased fee so no leasing of rights or land given any consideration. The mineral rights and or values fluctuate considerably and therefore the value in the market would also fluctuate making adjustment data difficult to determine. No wells or tanks noted on subject property and owner confirmed none. No tanks or wells were noted 200 feet of property boundaries per aerial map view, Highest and best use is residential.

-The "OTHER" in the land use section refers to roads, streets, recreation facilities, common space, places of community gathering.

-"LEGAL DESCRIPTIONS AND PARCELS ID WERE VERIFIED THROUGH COUNTY RECORDS"

-Appraiser observation is not to be interpreted as a home inspection, appraiser is NOT a home inspector. Appraiser is making extraordinary assumption that subject dwelling has no issues that are beyond appraiser's inspection, which is limited to his scope of work.

-Calculations for basement square footage and finished square footage for the comparables has been estimated to the best of abilities. Appraiser has not been inside comps, relies on MLS and County records for property information, all are extraordinary assumptions

-Remaining economic life derived or is based on the oldest dwelling(s) in the market as well as the median age of properties in the market and factoring in the updating to the subject. The updating of the subject contributes to factoring effective age and also remaining economic life
-Estimated economic life is 100 years.

The subject as improved is a legally permissible use based on its current zoning. The lot size, shape, physical condition and land to building ratio allow the present structure and indicate utilization of the improvements. Based upon the current market conditions, the present use as a single family residence is its financially feasible and maximally productive use. The highest and best use is its present use.

The appraiser has not identified any purchaser, borrower or seller as an intended user of this appraisal. Receipt of a copy of the appraisal by such a party or any other third party does not mean that the party is an intended user of the appraisal. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. This appraisal report should not serve as the basis for any property purchase decision or any appraisal contingency in a purchase agreement relating to the property.

I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved. My compensation is not contingent on an action or event resulting from the analysis, opinion or conclusions in, or the use of, this review report. My analysis, opinions and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

No employee, director, officer or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner in behalf of the lender has influenced or attempted to influence the development, reporting, result or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically to vendor management.

THIS APPRAISAL REPORT IS NOT A HOME INSPECTION. Scope of the Appraisal: The Scope of this appraisal is based on a prearranged agreement with the intended users(s) of this report. The "Intended User" of this appraisal is the lender/client and/or as noted in this report. No other Intended Users were identified by the client as of the effective date of the appraisal. The scope of work by the appraiser is for the purpose of developing an opinion of value to assist the lender/client with the mortgage lending decision. Although Fannie Mae's report form states the borrower and other third parties "may rely" upon this report, the use of this report by other parties and/or for any other purposes is not intended by the appraiser. Pursuant to USPAP SR1-2a, this appraisal is developed strictly and solely in accordance with the "Intended Use" communicated to the appraiser at the time of engagement. Parties other than the original client and/or that client's targeted funding source are advised that the scope of work utilized, and the analysis and resulting appraisal report have been undertaken within the identified user's policies and underwriting guidelines. Any other party which relies on the appraisal report is hereby advised that their policies and underwriting guidelines may differ from those of the Intended User named in this report, and for that reason are cautioned, if they rely on this report they do so at their own risk. Furthermore, the appraiser is not obligated, not permitted under USPAP (Uniform Standards Of Professional Appraisal Practice), to discuss, acknowledge, answer or reply to questions from anyone other than the identified user noted in this report. In addition, the borrowers reliance on this appraisal report is strictly limited to its use as part of the decision making process by their lender for the mortgage finance transaction. If a third party to this appraiser-client relationship desires an appraisal for their own uses, they are urged to seek one developed specifically for their own uses from a competent and appropriately licensed/certified appraiser. The appraiser noted in this assignment cannot accept responsibility for uses not otherwise identified at the time of engagement. The appraiser completed a limited physical inspection of the subject, which included an "exterior and interior view" of the subject and is in no way to be considered a "Home Inspection". If the appraiser noted obvious signs of physical deficiencies, they have been reported in this appraisal and the client may wish to review and determine if further investigation is warranted by a qualified professional. Similarly, the appraiser does not attest to be a structural engineer. The subject property

PURPOSE OF THE APPRAISAL

Private Market Value

SCOPE OF THE APPRAISAL

Appraiser made a visual observation of the property based on assignment type. Appraiser observed all readily available areas within the scope and education of an appraiser, not a home inspector. Appraiser also researched data bases such as Neohrex MLS, Core Logic Realist, County auditor sites, Ala mode mapping programs. Appraiser observed all comparables used from the street. Appraiser was able to verify all information through multiple sources concerning the subject and the comparables used.
-THE INTENDED USER OF THIS REPORT IS Harold R & Toni M Davis-Client THE INTENDED USE IS TO EVALUATE THE PROPERTY THAT IS THE SUBJECT OF THIS APPRAISAL FOR AN PRIVATE MARKET VALUE, SUBJECT TO THE SCOPE OF WORK, PURPOSE OF THE APPRAISAL, REPORTING REQUIREMENTS OF THIS APPRAISAL REPORT FORM AND THE DEFINITION OF MARKET VALUE. NO ADDITIONAL USERS ARE IDENTIFIED BY THIS APPRAISER. THE LEVEL AND DEPTH OF ANALYSIS MUST BE CONSISTENT WITH THE COMPLEXITY OF THE SUBJECT PROPERTIES AND THE MARKETPLACE IN ACCORDANCE WITH THE BEST INDUSTRY STANDARDS AND POLICIES.
